Headteacher: Mr Sven Carrington; BA (Hons),QTS.

Dear Parents,

Quite a number of TPS pupils have various allergies - particularly food allergies.

Two of the most common are allergies to Nuts and Kiwi Fruit - these allergies can be very serious.

We request that, as a school community, we be extra vigilant when packing lunchboxes and snacks.

Please ensure that no NUTS, KIWIS or NUT PRODUCTS are included i.e. Nutella, chocolate spreads, peanuts, pesto sauce (which contains pine nuts) etc.

The exposure of a child with a serious allergy can cause anaphylaxis and remains a constant worry for parents. Although children learn to cope with their condition it is, of course, best if the school environment is free from such 'potential dangers'.

We ask all parents to make TPS a Nut-Free and Kiwi Free environment.

We would also ask parents to explain the situation to their children so that all our pupils can learn to be responsible and careful where such products are available and consumed
